How to Choose the Right Neighbourhood

Finding an area that fits your lifestyle and future plans

Lifestyle Fit

- Distance to work and daily commute times
- Access to parks, schools, and amenities
- Walkability and nearby services
- Noise levels and overall feel of the area

Long-Term Value

- Neighbourhood growth and development plans
- School zones and community demand
- Access to major roads and transit
- Overall resale potential over time

Things Buyers Overlook

- Spending too much time on the home and not enough on the location
- Choosing based only on price instead of long-term fit
- Not visiting the area at different times of day
- Ignoring future changes in the area
